

# mERP Warehouse

**mERP Warehouse®** is a unique mobile app that helps you **manage your warehouse in real time** from a mobile device. It works with **RainbowChain™**, your Odoo based ERP on Premise, on **Odoo Cloud** or on **Xpansa SAAS**. The app **provides instant access to all ERP details from warehouse scanning device** making it even faster to receive goods or to make a physical inventory.

**mERP Warehouse®** works ideally with hardware scanners like Motorola MC40 and MC3200 (Zebra). It can also be used with any android phone/tablet with built-in camera.

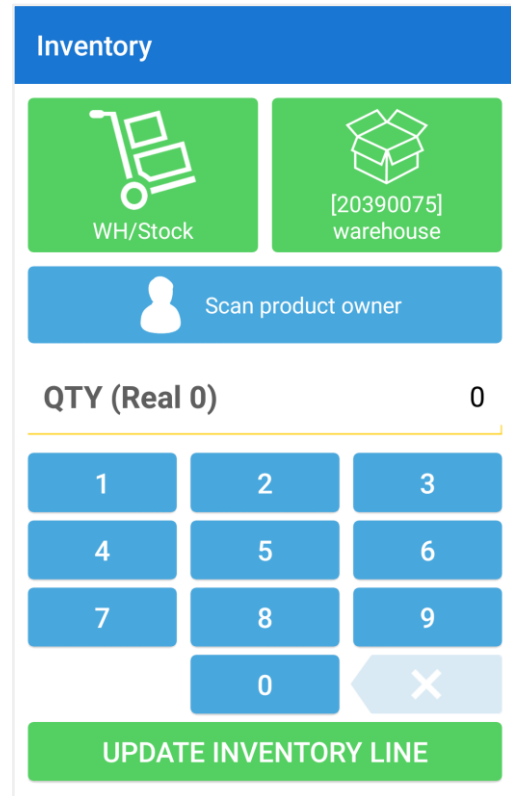

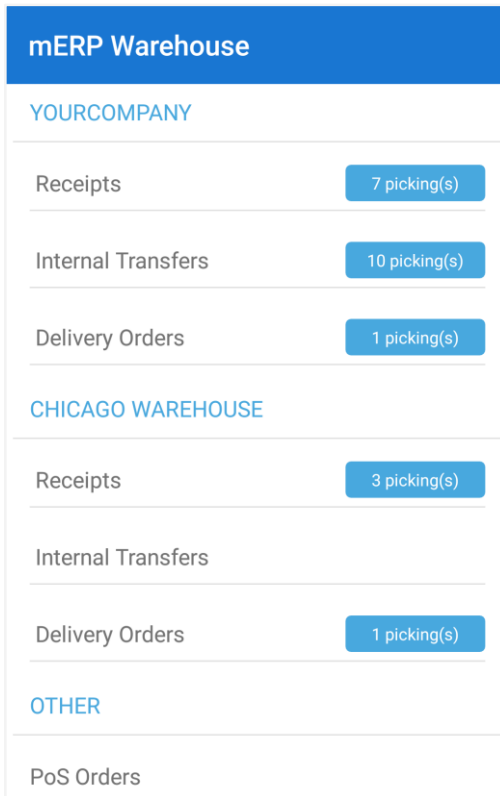

You may use **mERP Warehouse®** for either shop or large warehouse.

Discover the software in the following videos:
